

Westbrook & Ricston deliver best in class MuleSoft integration & Salesforce implementation capability

London September 1^{7th} 2018

Westbrook, the highly regarded Platinum Salesforce Implementation Partner is teaming up with Ricston, a longstanding MuleSoft partner to provide innovative integration solutions and complementary Salesforce implementation services.

The ability to source, integrate and act on external data is a central tenet of building a mature and effective 360° customer view. In order to increase the value from Salesforce adoption companies often need to connect to information sources throughout their enterprise, across public and private clouds, as well as access legacy system data.

Ricston has been delivering solutions with the MuleSoft's Anypoint Platform™ since 2006 and has built a strong and admired integration competency in Retail, Media & Broadcasting, Finance, Logistics & Airline industries.

Mike Randall Ricston CEO said “This strategic partnership is devised to position additional value and capabilities to Salesforce customers and companies that are building 360° customer view solutions, through leveraging Salesforce and MuleSoft’s integration platform in the UK and worldwide.”

Ambrose McGinn Westbrook CEO said, “We are delighted to bring together these complimentary skill sets as Mulesoft is now an integral part of the Salesforce platform and proposition. Working together with Ricston we provide a cross platform solution set unrivalled in the UK.”

About Westbrook International Ltd.

Westbrook is a Platinum Consulting Partner to Salesforce.com, the Customer Success Platform and world's #1 CRM company. Salesforce Ventures is an investor in Westbrook International Ltd. with an active seat on the board. Westbrook has more than 12 years of experience delivering projects to over 400 clients and is a #1 winning company in Megabuytes 2017 Emerging Stars Awards.

About Ricston Ltd:

Ricston Ltd. is an integration and connectivity service provider established in Malta in 2006. The company delivers IT services worldwide with its unique nearshore model and development teams in Malta and Spain along with a growing onshore team in the UK.

Ricston specialises in Enterprise Integration Solutions, primarily architected and built on MuleSoft's Anypoint Platform™ – a leading platform for API-led connectivity that creates an application network of apps, data, and devices – both on-premises and in the cloud.
